As well, the Client is only responsible for coordinating between the universities and the students and are not responsible for the issuance of the certificates and graduation, as their role is only a supervising and advising role.

And as per the timeline for completing the program and obtaining your certificate, it depends on your progress and achievements and the university rules.

Further to your request, we refer to the new research study method about the flexibility of education in distance learning. The candidates will get the final degree from different universities in UK after completing many steps in self-study method and according to British standards:

1-Courses and programs in the chosen major with specific academic credit reach to 180 credits in some majors;

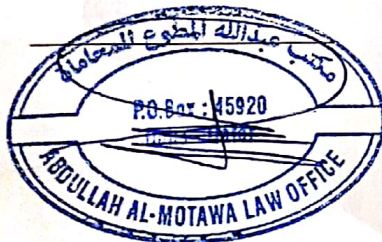

2-Postgraduate diploma level 7; and

3-Final research.

We appreciate your coordination and hereby request you to be in compliance with the Client's policies and the university's rules.

Sincerely,

Abdulla Al-Mutawa Law Office
